

Advanced Framework Extension

The intelligent solution
for your
framework design

SMART – FAST – ROBUST

Integrated in
creo® parametric

You like to ...

- ... fast and easily create the layout of your Framework structures
- ... choose from extensive libraries of Profiles, Connectors and Equipment
- ... comfortably define profile joints
- ... automate BOM and drawings

AFX Standard offers:

- Efficiently assemble profiles on curves or between points
- Move, rotate and replace Profiles with ease
- Comprehensive Profile library
- Drawing tools for BOM, stock length tables and optimized cut lists

AFX Advanced offers in addition:

- Comfortable assembly of connectors and equipment from large libraries
- Intelligent Pins- and Screw connections (full version of B&W IFX module)
- Automation of Framework drawings
- Export and import in DSTV and SDNF format
