

Progressive Die Extension

The intelligent solution
for
**Progressive Die
Design**

SMART – FAST – ROBUST

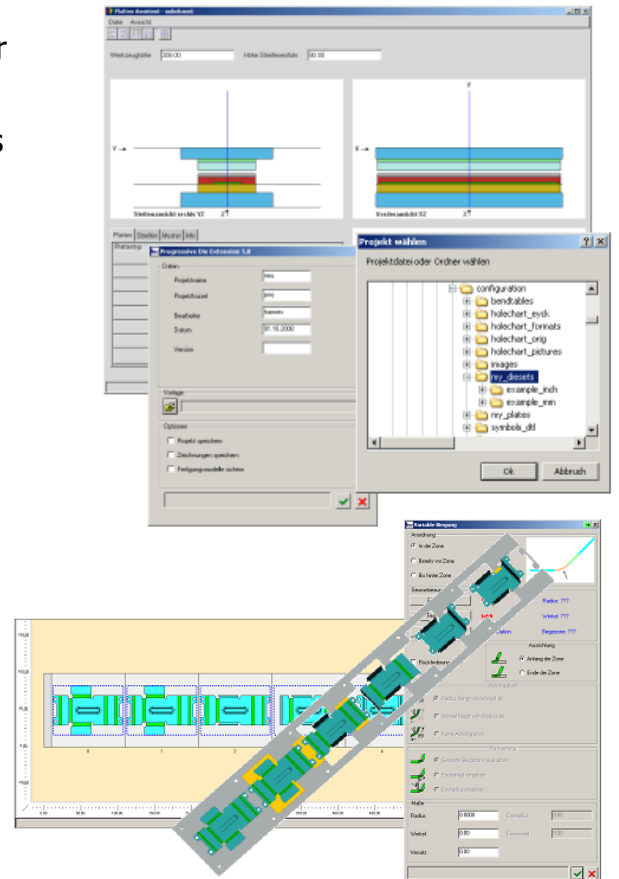

Fully integrated in
PTC® Creo® Parametric™

You like to ...

- ... Quick and easily define the strip layout of your progressive die design
- ... Comfortably place and modify die components and standard parts from major suppliers
- ... Flexible manage and export BOM data
- ... Dynamically place and modify cut stamps

PDX provides:

- Comfortable die set configuration
- Flexible definition of your strip layout
- Intelligent placement of die components and standard parts from over 20 supplier catalogues
- Drawing templates for assemblies and plates
- Flexible management and export of the BOM
- Powerful analysis tools
- Simulation of the die opening including optional collision detection
- Integration of B&W SMARTHolechart application
